Title 3.2. Agriculture, Animal Care, and Food
Subtitle IV. Food and Drink; Weights and Measures
Chapter 51. Food and Drink

Chapter 51. Food and Drink.

Article 1. General Provisions.

§ 3.2-5100. Duties of Commissioner.

A. The Commissioner shall inquire into the dairy and food and drink products, and the articles that are food or drinks, or the necessary constituents of the food or drinks, that are manufactured, sold, exposed, or offered for sale in the Commonwealth.

B. The Commissioner may procure samples of the dairy and food products covered by this chapter and may have the samples analyzed.

C. The Commissioner shall issue a permit to any food manufacturer, food storage warehouse, or retail food establishment that, after inspection, is determined to be in compliance with all applicable provisions of this chapter and any regulations adopted thereunder. The Commissioner shall notify any applicant denied a permit of the reason for such denial. Any food manufacturer, food storage warehouse, or retail food establishment issued a permit pursuant to this subsection shall be exempt from any other license, permit, or inspection required for the sale, preparation, or handling of food unless such food manufacturer, food storage warehouse, or retail food establishment is operating as (i) a restaurant as defined in Title 35.1, as jointly determined by the State Health Commissioner and the Commissioner; (ii) a plant that processes and distributes Grade A milk as referenced in this title, as determined by the State Health Commissioner; or (iii) a shellfish establishment as defined in Title 28.2, as determined by the State Health Commissioner.

D. The Commissioner shall make a complaint against the manufacturer or vendor of any food or drink or dairy products that are adulterated, impure, or unwholesome, in contravention of the laws of the Commonwealth, and furnish all evidence to obtain a conviction of the offense charged. The Commissioner may make complaint and cause proceedings to be commenced against any person for enforcement of the laws relative to adulteration, impure, or unwholesome food or drink, and in such cases he shall not be obliged to furnish security for costs.

E. The Commissioner may develop criteria to determine if food manufacturers that are operating in a building deemed, in consultation with the Director of the Department of Historic Resources, to be historic are producing food products that are low risk of being adulterated. If, pursuant to such criteria, any such manufacturer is producing food products that are deemed to be low risk, the Commissioner may exempt the food manufacturer from specified provisions of this chapter, or regulations adopted thereunder, that pertain to the structure of the building, provided that the Commissioner determines that such exemption is unlikely to result in the preparation for sale, manufacture, packing, storage, sale, or distribution of any food that is adulterated, as defined in § 3.2-5122.

In prescribing a definition and standard of identity for any food or class of food in which optional ingredients are permitted, the Board shall, for the purpose of promoting honesty and fair dealing in the interest of the consumers, designate the optional ingredients that shall be named on the label. The definitions and standards so adopted may conform so far as practicable to the definitions and standards promulgated by the Secretary of Health and Human Services under authority conferred by § 401 of the federal act.

B. The Board may adopt regulations for the efficient administration of subsection C of § 3.2-5100 in accordance with the Administrative Process Act (§ 2.2-4000 et seq.).

1. Inspecting such factory, warehouse, establishment, or vehicle to determine if any of the provisions of this chapter are being violated; and
2. Securing samples or specimens of any food after paying or offering to pay for such sample. When standards have been or may be established by the U.S. Department of Health and Human Services, they shall be accepted by the Department and published as standards for the Commonwealth, but such standards shall not go into effect until a reasonable time after publication. § 3.2-5121. Authority to adopt regulations; conformity with federal regulations; hearings; enforcement of article; review of regulations.

A. The Board is authorized to adopt regulations for the efficient enforcement of this article, unless that authority is specifically granted to the Commissioner. The Board may make the regulations adopted under this article conform, insofar as practicable, with those adopted under the federal act. Notwithstanding any other requirement under the Administrative Process Act (§ 2.2-4000 et seq.) to the contrary, the Commissioner may adopt any regulation under the federal act without public hearing. Such regulation shall be effective upon filing with the Registrar of Regulations. The Board, at its next regular meeting, shall adopt the regulation after notice but without public hearing unless a petition is filed in accordance with subsection F.

B. The Board may adopt any edition of the Food and Drug Administration's Food Code, or supplement thereto, or any portion thereof, as regulations, with any amendments as it deems appropriate. In addition, the Board may repeal or amend any regulation adopted pursuant to this subsection. No regulations adopted or amended by the Board pursuant to this subsection shall establish requirements for any license, permit, or inspection unless such license, permit, or inspection is otherwise provided for in this title. The provisions of the Food and Drug Administration's Food Code shall not apply to farmers selling their own farm-produced products directly to consumers for their personal use, whether such sales occur on such farmer's farm or at a farmers' market, unless such provisions are adopted in accordance with the Administrative Process Act (§ 2.2-4000 et seq.).

C. The provisions of the Administrative Process Act (§ 2.2-4000 et seq.) shall not apply to the adoption of any regulation pursuant to subsection B if the Board of Health adopts the same edition of the Food and Drug Administration's Food Code, or the same portions thereof, pursuant to subsection C of § 35.1-14, and the regulations adopted by the Board and the Board of Health have the same effective date. In the event that the Board of Health adopts regulations pursuant to § 2.2-4012.1, the effective date of the Board's regulations may be any date on or after the effective date of the regulations adopted by the Board of Health.

Such regulation shall become effective 15 days after publication in the Virginia Register, unless the Board has withdrawn or suspended the regulation, or a later date has been set by the Board. The Board shall also hold at least one public hearing on the proposed regulation during the 60-day comment period. The notice for such public hearing shall include the date, time, and place of the hearing.

F. The Board or Commissioner shall from time to time for good cause shown to review the regulations and enforcement guideline adopted pursuant to this article. If the Commissioner finds that any federal regulation or enforcement guideline that includes any tolerance or action level that does not protect the health and welfare of the citizens of the Commonwealth, he shall petition the appropriate federal agency to change the federal regulation or enforcement guideline.

G. The Commissioner or any interested party for good cause shown may request the Board to hold a public hearing concerning a regulation or enforcement guideline. If the Board after hearing finds that the regulation or enforcement guideline does not protect the health and welfare of the citizens of the Commonwealth, it shall adopt a new regulation or enforcement guideline. Within the limits of personnel and funds available all state agencies and institutions shall cooperate and assist in furnishing information and data as to whether the regulations or enforcement guidelines in question protect the health and welfare of the citizens of the Commonwealth.

H. No regulation adopted or amended by the Board pursuant to subsection B shall require that commercially slaughtered or processed rabbits that are offered for sale or service be slaughtered or processed under (i) the voluntary inspection program that i

conducted by the state agency that has animal health jurisdiction or (ii) a voluntary inspection program that is administered by the U.S. Department of Agriculture. 3. If any word, statement, or other information required by this article is not prominently placed on the label with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.
4. Unless its label bears:
 - a. The common or usual name of the food, if there is any;
 - b. When the food is fabricated from two or more ingredients, the common or usual name of each ingredient. Spices, flavorings, and colors not required to be certified under section 721(c) of the federal act, other than those sold as such, may be designated as spices, flavorings, and colorings, without naming each; and

To the extent that the Commissioner believes that compliance with the requirements of subdivision 4 b is impractical or results in deception or unfair competition, exemptions shall be established by the Commissioner. The requirements of subdivision 4 b shall not apply to any carbonated beverages, ingredients of which have been fully and correctly disclosed to the extent prescribed by subdivision 4 b to the Commissioner in an affidavit.

5. If it is offered for sale under the name of another food.

6. If it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word, imitation, and immediately thereafter, the name of the food imitated.

7. If its container is made, formed, or filled as to be misleading.

8. If in package form, unless it bears a label containing: (i) the name and place of business of the manufacturer, packer, or distributor; (ii) the name of the article; (iii) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count; provided, that under clause (iii) of this subdivision reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Board.

9. If it purports to be or is represented as a food for which a definition and standard of identity has been prescribed by regulations as provided by § 3.2-5101 unless: (i) it conforms to such definition and standard; and (ii) its label bears the name of the food specified in the definition and standard, and, insofar as may be required by such regulations, the common names of optional ingredients, other than spices, flavoring, and coloring, present in such food.

10. If it purports to be or is represented as:

a. A food for which a standard of quality has been prescribed by regulations as provided by § 3.2-5101 and its quality falls below such standard unless its label bears, in such manner and form as regulations specify, a statement that it falls below such standards; or

b. A food for which a standard or standards of fill of container have been prescribed by regulations as provided by § 3.2-5101, and falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard.

11. If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the Board requires through regulation to fully inform purchasers as to its value for such uses.

12. If it bears or contains any artificial flavoring, artificial coloring or chemical preservative, unless it bears labeling stating that fact; provided that to the extent that the Commissioner believes that compliance with the requirements of this subdivision is impracticable, exemptions shall be established by the Commissioner; provided, that the provisions of this subdivision and of subdivisions 4 and 9 with respect to artificial colorings shall not apply in the case of butter, cheese or ice cream.

B. If an article is alleged to be misbranded because the label is misleading, or if an advertisement is alleged to be false because it is misleading, then in determining whether the labeling or advertisement is misleading, there shall be taken into account, among other things, not only representations made or suggested by statement, word, design, device, sound, or in any combination thereof, but also the extent to which the labeling or advertisement fails to reveal facts material in the light of such representation or material with respect to consequences that may result from the use of the article to which the labeling or advertisement relates under the conditions of use prescribed in the labeling or advertisement or under such conditions of use as are customary or usual

Code 1950, §§ 3-307, 3-316; 1966, c. 702, §§ 3.1-387, 3.1-396; 1996, c. 728; 2008, c. 860.
