

Vol. 1 · January 2025

The Stalk

Accomack & Northampton County Cooperative Extension
Eastern Shore Agricultural Research & Extension Center

EASTERN SHORE AG CONFERENCE AND TRADE SHOW January 29 - 30th 2025 - Exmore Moose Lodge

HIGHLIGHTS

- ESAREC, VCE, VDACS, Farm Bureau, USDA & Office of the Secretary Updates
- Keynote: "Rising Cost of Electricity: How Does it Affect Agriculture?"
- Soybean, Agronomic, Potato / Vegetable Sessions
- Economic Sustainability in Ag Session
- Pesticide Recertification in one day (commercial / private VA/MD)
- Lunch (Exmore Diner) provided
- Visit our VCE table for 2025 updates and resources
- Meet our 4 new Extension specialists!

The 35th year of the Ag Conference and Trade Show has a packed agenda with new sessions to keep you updated on the latest and most relevant information and research to benefit your agricultural production systems. Sessions include a soybean, agronomic, potato/vegetable and an economic sustainability session.

Speakers will include Virginia Tech Extension Specialists from the ESAREC, TAREC, Southern Piedmont, and Virginia Tech, as well as invited presenters from supporting industry. Come meet four of our new Extension specialists!

We encourage you to take full advantage of our program by attending the general session and educational sessions, visiting exhibitors and networking with agribusinessmen and women from all over the region. As always, make sure to register to obtain pesticide license recertification credits for commercial and private categories in both Virginia and Maryland.

Below you will find the complete brochure for this year's conference. We are looking forward to seeing you at the 35th Annual Eastern Shore Agricultural Conference and Trade Show!

Theresa, Helene and Mark

SAVE THE DATE

JANUARY 23RD

Private Pesticide Recertification

Categories 90 & 91

When:

January 23rd, 2025
8:00am - 1:45pm

CATERED LUNCH INCLUDED!

Where:

Eastern Shore Agricultural Research and Extension Center
33446 Research Dr
Painter, VA 23420

RSVP Required:

Helene Doughty
Northampton ANR Agent
hdoughty@vt.edu
757-999-0780

Theresa Pittman
Accomack ANR Agent
tpittman@vt.edu
757-787-1361 ext. 14

If you cannot attend this program, recertification will be offered at the 2025 Eastern Shore Ag Conference on January 29th and 30th FOR CATEGORY 90 ONLY

If you are a person with a disability and desire any assisted devices, services, or other accommodations to participate in this activity, please contact Amanda Hurley at the Northampton County Extension office, 757-678-7946 x 1, during regular business hours (8:00am-4:30pm) to discuss necessary accommodations no later than 5 days prior to the event. TDD 1-800-828-1120

IF YOUR PRIVATE PESTICIDE LICENSE EXPIRED IN DEC 2024...

Recertify with one of the following methods:

1. Attend the VCE Private Pesticide Recertification Class on January 23rd, 2025
2. Attend the Eastern Shore Agricultural Conference on January 29th and 30th, 2025
3. Call your County Agent to arrange to take the Private Pesticide License Test for recertification credits
4. Take the Online Private Pesticide Applicator Recertification Course by [visiting this link](#)

IMPORTANT

HOW TO OBTAIN RECERTIFICATION CREDITS AT THE 2025 EASTERN SHORE AG CONFERENCE

**TO RECEIVE CREDITS, APPLICANTS MUST SIGN UP AT
THE PESTICIDE REGISTRATION BOOTH AND ATTEND**

1. Pesticide Legal Updates - Nikita Higgins, VDACS Investigator

a. 1/29, 9:15am - General Session, Lodge Room

2. Pesticide Safety Updates - Choice of the following:

a. 1/29 1:50pm - Soybean Session, Seafood Room

b. 1/29 2:30pm - Agronomic Session, Lodge Room

3. Your Choice of One of the Following Sessions:

a. 1/29 1:00pm-3:30pm Soybean Session, Seafood Room

b. 1/29 1:00pm - 3:30pm Agronomic Session, Lodge Room

c. 1/30 8:15am - 12:00pm Potato/Vegetable Session, Seafood Room

**MARYLAND RECERTIFICATION CREDITS ALSO AVAILABLE
1A, 10, CORE, PVT**

CONFERENCE EVALUATION

Fill out the conference evaluation to be entered to win a prize!!!

Copies available at the pesticide recertification desk or via QR code

We appreciate your willingness to provide feedback on the AG Conference

Program as well as future educational programs

2025 Eastern Shore Agricultural Conference Oyster Roast

Eastern Shore Agricultural Conference **Oyster Roast**

Wednesday, January 29th

**Tickets available for purchase
from Bruce Richardson, Chairman**

**Location: ESAREC
33446 Research Dr., Painter, VA 23420**

**Time: Social Hour - 6:00 pm
BBQ and Oysters - 6:30 pm**

Tickets: cost is \$50/person

AgriBusiness

General Session—Wednesday, January 29th—Lodge Room

Moderator —Bruce Richardson, Chairman, Association of Eastern Virginia Agricultural Producers, Inc.

8:00 a Registration

8:15 Welcome & Opening Remarks—H. Bruce Richardson, Chairman, Association of Eastern Virginia Agricultural Producers, Inc.

8:30 Updates from the Eastern Shore AREC—Dr. Mark Reiter, Director, Virginia Tech Eastern Shore Agricultural Research and Extension Center

8:45 Updates from Virginia Cooperative Extension—Dr. Mike Gutter, Director, Virginia Cooperative Extension

9:00 Pesticide Legal Updates—Nikita Higgins, Pesticide Investigator, VDACS

You must attend the Pesticide Legal Updates presentation to receive recertification credit.

9:45 Updates from USDA NAREE Board and Office of the Secretary—Kate Lewis, Office of the Secretary, USDA NAREE

10:00 Break - Visit with Exhibitors

Trade Show

10:15 Keynote Presentation: Rising Cost of Electricity: How Does it Affect Agriculture? — Butch Williamson - ANEC

10:45 2025 Market Outlook —Robert Harper, Grain Division, Virginia Farm Bureau Fed.

11:15 VDACS Updates—Matt Lohr, Secretary of Agriculture, VDACS; Joseph Guthrie, Commissioner of Agriculture, VDACS;

11:45 Awards Ceremony — H. Bruce Richardson, Chairman, Association of Eastern Virginia Agricultural Producers

12:00 Enjoy Lunch Catered by the Exmore Diner—served in the Trade Show

Keynote Speaker:

Chris Cosby —ODEC

Chris Cosby will become president and CEO of Glen Allen's Old Dominion Electric Cooperative on Feb. 1, 2025. Cosby is currently ODEC's chief operating officer. Since joining ODEC in 2018, he has served as senior vice president of power supply, vice president of regulatory affairs and director of asset management. Before joining ODEC, Cosby held varying positions at General Electric, Dominion Energy and Alstom Power. Prior to his career in the utility industry, Cosby served on active duty in the U.S. Navy as an officer and pilot, flying the P-3 Orion, for 10 years. Cosby deployed throughout Western Europe, South America, Iceland and Puerto Rico.

He holds a bachelor's degree in mechanical engineering from the U.S. Naval Academy.

ODEC is a not-for-profit, member-owned power supply cooperative. The cooperative has 11 member electric distribution cooperatives that supply electricity to 1.5 million people in 70 counties

We fly Low and Slow ...

The Best way to Cover your fields and help them Grow!!!

At Bunting's Dusting, our pilots have an extensive Ag Background and understand your specialized needs. We have found a better way to put out more Chemicals per acre, less drift and less inversion result in higher yields and more precise application.

*Serving Dorchester, Sussex, Worcester, Somerset, Wicomico Counties
and The Eastern Shore of Virginia.*

Buntings Dusting

410-251-6224

Soybean Session—Wednesday, January 29th—Seafood Room

Moderator - Theresa Pittman, Virginia Cooperative Extension Agent, Accomack County

1:00 p *Key Decisions to Support Enhancing Soybean Yields*—Dr. Carrie Ortel, Virginia Tech Soybean Specialist, Dr. Joseph Oakes, Dr. Mark Reiter

Official variety trials conducted across Virginia are intended to support stakeholders in their variety selection decisions. Within each maturity group category, yields vary by greater than 20 bushels per acre between varieties, emphasizing the importance of variety selection. Similarly, planting dates have a large impact on yield and seed quality, and seeding rate should be adjusted for the planting date and environment.

1:30 p *IPM Strategies to Minimize on Farm Costs* —Dr. Kemper Sutton, Assistant Professor of Entomology, ESAREC., Hélène Doughty, ANR Extension Agent, Northampton VCE

In 2024 where poor commodity prices and drought are issues most growers dealt with, it is important to utilize on farm strategies that reduce production costs while still producing a quality crop. This talk will cover integrated pest management strategies that can be used to reduce insect pressure through the use of thresholds.

1:50 *Break - Visit with Exhibitors* *Trade Show*

2:10 *Effective Management of Major Insect Pests of Soybeans* — Dr. Tim Bryant, Assistant Professor of Entomology, TAREC

This talk will cover how to scout for, identify, and manage insect pests of soybean. The status of insecticide resistance and efficacy of new insecticide products will be presented.

2:30 *Pesticide Safety Update*— Theresa Pittman, ANR Extension Agent, Accomack County—VCE
You must attend the *Pesticide Safety Update* presentation in order to receive recertification credit.

3:30 *Association of Eastern Virginia Agricultural Producers Meeting*—Lodge Room

Agronomic Session—Wednesday, January 29th—Lodge Room

Moderator - *Hélène Doughty, Virginia Cooperative Extension Agent, Northampton County*

1:00 p *Enhancing the Value of Virginia's Grain Crops through Quality* — Dr. Olga Walsh, Grain Crops Extension Specialist, Virginia Tech

The talk will cover grain crops quality issues with a focus on High DON in Wheat, and High Nitrates in Corn. Research on improving nutrient management in grain crops will be highlighted.

1:30 *Aflatoxins on Corn*— Dr. David Langston, Professor of Plant Pathology, TAREC

Aflatoxins on corn can cause serious post-harvest losses in certain years. Information on what causes aflatoxins and how aflatoxin-contaminated corn should be handled will be covered.

1:50 *Herbicide Resistant Weeds Updates*—Dr. Vijay Singh, Assistant Professor of Weed Science, ESAREC., Milos Viric, Akash Brar, Robert Cooley

Increasing numbers of multiple herbicide resistant weeds is a challenge to sustainable crop production in Virginia and presents an obstacle to Integrated Weed Management strategies. We have conducted field surveys and screened weeds (Italian ryegrass and Palmer amaranth) for herbicide resistance to major herbicides. Screening results indicated that 15% of Palmer amaranth populations in Virginia are multiple-resistant to both glyphosate (EPSPS-inhibitor, and ALS-inhibitor). For Italian ryegrass, results showed a high level of resistance to individual ALS- and ACCase-inhibitor herbicides and also cross and multiple herbicide resistance in four populations

2:10 *Break - Visit with Exhibitors*

Trade Show

2:30 *Pesticide Safety Update*— Hélène Doughty, ANR Extension Agent, Northampton County— VCE

You must attend the *Pesticide Safety Update* presentation in order to receive recertification credit.

3:30 *Association of Eastern Virginia Agricultural Producers Meeting*—Lodge Room

SUPPORT THE MERCHANTS OF

SHOPPING, SERVICES & DINING

Potato/Vegetable Session—Thursday, January 30th—Lodge Room

Moderator —Bruce Richardson, Chairman, Association of Eastern Virginia Agricultural Producers, Inc.

8:00 a Registration

8:15 Potato Market Outlook for 2025 — Brett Richardson, Marketing Specialist, VDACS

A review of last year's market conditions and a look forward as to what we can expect in the upcoming year.

8:45 Update from Potatoes USA — Chelsea Gray, Potatoes USA

9:15 Insect Control in Potatoes —Hélène Doughty, ANR Extension Agent, Northampton VCE, Dr. Thomas Kuhar, Professor of Entomology, Virginia Tech, Hannah Swarm, PhD student, Entomology, Virginia Tech

This presentation will provide results of the 2024 on-farm, at planting insecticide trial for the control of wireworms in potatoes as well as discuss insecticide updates in potatoes.

9:35 Potato Varieties for the Eastern Shore of Virginia —Dr. Mark Reiter, Professor of Soils and Nutrient Management, ESAREC

Potato varieties are an ever-evolving science to bring us the most suitable varieties to be grown in our climate. We will discuss current varieties available along with clones being researched by Eastern USA breeding programs. Focus will be on emergence, disease pressure, rot, yield, and size. The overall idea is to have the best tubers produced with the least amount of fungicide application to facilitate integrated pest management goals.

10:05 Break – Visit with Exhibitors

Trade Show

10:20 Disease Management Updates: Potato and Snap Beans —Dr. Doug Higgins, Assistant Professor of Plant Pathology, ESAREC

In this talk we will review the 2024 disease campaign for potatoes and snap beans on the Eastern Shore and discuss available integrated pest management options.

11:00 Herbicides for Weed Management in Potato and Cole Crops —Dr. Vijay Singh, Assistant Professor of Weed Science, ESAREC, Robert Cooley, Research Specialist, ESAREC

Herbicides were evaluated for weed management and tolerance to potato and Cole crops. Tested preemergence herbicides can provide control of herbicide-resistant weeds. Information on herbicide tolerance to Cole crops, can allow for 24c labeling of major herbicides

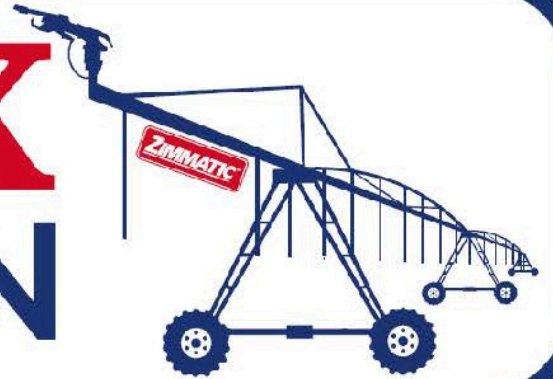

11:30 Pesticide Applications with Drones in Row-crops and Vegetables —Dr. Vijay Singh, Assistant Professor of Weed Science, Akash Brar, Fatemeh Esmailbeiki, Milos Viric, Rutvij Wamanse, Robert Cooley, ESAREC, Hélène Doughty, Extension Agent, Northampton VCE

Aerial drone-based pesticide applications have been gaining popularity in the Mid-Atlantic region. We have conducted several studies in row-crops and vegetables for aerial-drone based herbicides and insecticide applications, evaluated different nozzles, and optimized spray parameter

Economic Sustainability—Thursday, January 30th—Lodge Room

Moderator - Theresa Pittman, Virginia Cooperative Extension Agent, Accomack County

8:00 a Registration

8:15 **Meta-Analysis of In-Field Fungicide Trials in United States Row Crops**—Kevin Caffrey, Sr. Agronomist—Sales Enablement, Simplot

8:35 **NRCS Cost-share Program Updates**—Jenny Templeton, District Conservationist

8:50 **ESSWCD Cost-share Program Updates**—Carmie Ross, District Manager, Eastern Shore Soil and Water Conservation District

9:05 **A New Ag-Econ Faculty's Vision for Supporting Virginia Growers**—Dr. Shourish Chakravarty, Assistant Professor, Agricultural Economics, Southern Piedmont AREC
Dr. Chakravarty will present his research and extension program which focuses on evaluating the profitability and economic viability of technology adoption, crop diversification, and conservation practice adoption in diverse production systems.

9:25 **Enterprise Budgets**—Scott Reiter, ANR Extension Agent, Prince George Cooperative Extension

9:55 **Conserving Eastern Shore Working Farms and Forests**—Hali Plourde-Rogers, Executive Director, Eastern Shore Land Trust

Conservation easements protect working farms and forests from development and allow landowners to take advantage of the economic benefits of working lands. The presentation will cover conservation easement basics, highlight the benefits of conservation easements, introduce tax incentives, and feature case studies

10:15 **Break – Visit with Exhibitors**

Trade Show

10:30 **Crop Insurance: Your Best Risk Management Tool**—Luke Southern, RCIS
2024 will be a year that none of us forget anytime soon. Low commodity prices, high input cost, drought, and severe storms. Did your coverage meet your needs? What changes could you potentially make to better protect your farm in 2025?

10:50 **Perdue Specialty Crops Options**—Jayson Gill, Perdue Agribusiness

11:35 **DEQ Overview and Regulatory Requirements of Surface and Groundwater Permits**—Trevor Lawson, Virginia Department of Environmental Quality

The Virginia Department of Environmental Quality will provide an overview of the surface and groundwater permitting programs, regulations, and permitting requirements for agricultural users on the Eastern Shore.

12:00 **Enjoy Lunch Catered by the Moose Lodge—served in the Trade Show**
